

We are closely monitoring the COVID-19 outbreak, in particular the potential impact within our local community. There is nothing more important than maintaining a safe environment, and we will be taking all necessary precautions for the well-being of our entire shopping center community. This includes following guidelines provided by the Centers for Disease Control (CDC), the World Health Organization (WHO) and our local Department of Health.

**Easter Bunny Update:** Out of an abundance of caution have decided to postpone the opening of the Easter Bunny experience. Should the situation change, it may open closer to Easter.

**Mall Hours Update:** Effective, March 16, the shopping center will operate between 12 pm to 7 pm every day except for Sunday, when the hours are 1pm to 6 pm. Mall doors will open one hour prior to store opening for staff members only.

**Store Hours:** We remain committed to supporting the operations of our retailers. We recognize that, in light of concerns surrounding the Coronavirus, retailers and merchants may implement their own corporate policies regarding modified hours or temporary store closures. Please make sure to check the restaurant or store hours prior to visiting.

### **Here Are The Steps We Are Taking:**

- The CDC guidelines on workplace cleanliness include an increased frequency of cleaning highly touchable areas throughout a property. We are disinfecting high traffic areas within the center and parking area.
- As an extra precaution, we are working with our housekeeping vendors to increase the frequency and intensity of cleaning touchable surfaces using a strong disinfectant known to eradicate viruses.
- Hand sanitizer dispensers have been placed in the malls commons areas and will be replenished or replaced as needed.
- We continue to monitor the situation and the government's response. We are committed to working with local, state and federal health officials to ensure an appropriate plan is in place to help prevent the spread of the virus.

### **Here Is What You Can Do To Stay Healthy:**

- Wash your hands frequently with soap and water for a minimum of 20 seconds.
- Avoid your touching eyes, nose or mouth with unwashed hands.
- Avoid close contact with people who are sick.
- If you do become sick with respiratory symptoms such as fever and cough, please stay away from work, school or other people to avoid spreading the illness.
- Keep a safe distance from others and avoid social gatherings.
